Member Discount for registering 2 or more people!

Thursday, March 18, 2010

8:00 a.m. to 4:30 p.m.

and

Friday, March 19, 2010

8:00 a.m. to 3:00 p.m.

FOR COMPLETE DETAILS AND SECURE ON-LINE REGISTRATION, PLEASE VISIT www.hcaonline.org

The Home Care Association of Colorado and Fazzi Associates are happy to bring you two days of the most intensive OASIS C training available. This training is designed specifically to help you start and succeed with OASIS C. As an attendee, you'll receive all the "must know" information on the most important changes to the current assessment – and how to respond to each of these changes. This includes best practice strategies for responding to process of care measures, conventions for completing the most important revised assessment items, and a review of screening questions that will have a dramatic impact on clinical practices. As a participant, you will walk away with current, relevant information and be able to select responses to OASIS data items that accurately describe the patient's health status and provider care practices in accordance with Medicare regulation, CMS guidance documents and other applicable industry standards after conducting a patient multi-system assessment.

Educational Objectives:

- Discuss the clinical, quality and fiscal significance of the new OASIS data items.
- Learn effective tools for responding to the OASIS C process-measures such as depression screening and pressure ulcers.
- Identify the essential components of multi-system and functional activity assessments and reporting requirements.
- Get best practice strategies for answering the OASIS C clinical, functional and wound items.

****Please note: This workshop will not be recorded and, therefore, no tape or CD will be available for purchase.****

Workshop Details: The seminar will be held at The Summit Conference and Event Center, 411 Sable Boulevard North, Aurora, Colo. (303) 343-3833.

Hotels: There are several hotels within five miles of The Summit Conference and Event Center. Please call directly for accommodation rates and availability:

Hilton Garden Inn Denver Airport	303-371-9393
Hyatt Place Denver Airport	303-371-0700
The Timbers Denver	800-844-9404

OASIS Skills Assessment & Certification Test:

Fazzi's OASIS Skills Assessment Testing is a revolutionary new tool designed to assess clinicians' OASIS skill levels on an individual and agency wide level. Developed by a panel of OASIS specialists who have over 50 cumulative years working with OASIS, each *quarterly* test covers a wide range of critical OASIS assessment items. Go to: http://www.fazzi.com/oasis/OASIS_Complete_Program.html for more information.

The OASIS Certificate and Competency Board, Inc. (OCCB) is a non-profit organization dedicated to promoting greater reliability in OASIS data, through consistent application of guidelines provided by the Center for Medicare & Medicaid Services (CMS). To achieve this goal, the OCCB offers a voluntary certificate examination which home care providers may take in order to demonstrate and establish their expertise and commitment to OASIS data accuracy. *This exam is currently the only nationally standardized measure of OASIS accuracy.* Go to: <http://www.oasiscertification.org> for more information.

Speaker: Cindy Krafft, PT, MS, COS-C, uses her expertise to connect the data items to the essentials of home care practice: assessment, care planning, care coordination and communication. Cindy Krafft has been actively involved in Home Care for over 12 years, both clinically and operationally. She is a Senior Clinical Consultant with Fazzi Associates and the Vice President of the Home Health Section of the American Physical Therapy Association.

[Please complete the attached registration form and send to HCAC by March 4, 2010](#)
